RE: SpaceKap Plus & SpaceKap Max Transferable Truck Bodies

Just a note to let you know how much we like your SpaceKap Max & SpaceKap Plus transferable truck bodies. We recently purchased our 5th SpaceKap Plus body from your company, with our 1st purchase being a SpaceKap Max, which brings our total to 6 purchased to date. We have a 7th on order now.

We are in the Fiber Optic Services industry, and we find the fiberglass bodies more air tight than metal bodies or standard camper type labs. The ease of installation and transferability makes these units the best in the business!

We purchased 2 other fiberglass labs, made by CargoBody, before coming across your SpaceKap bodies. We were very unhappy with the quality of workmanship, and with the honesty, and integrity of their dealer in Indiana.

As our needs arise in the future, we will continue to purchase your SpaceKap bodies, because we do not believe there is a better transferable truck body in the world!

Regards,

Michael K. Mansfield
